

MISSIONARY OBLATES JPIC

JPIC Community Animation

Given the 'non-negotiable' integration of OMI JPIC values and ministry in all that we do as Oblates with our many Collaborators within the U.S. Province and beyond, JPIC staff seeks ways to "give attention to providing resources and animation for local Oblate personnel and ministries" by 'partnering with' Oblates and Collaborators.

Visiting Ministries

Director of JPIC, Fr. Antonio Ponce, OMI, spends much of his time visiting Oblates in the U.S. Province, getting to know their ministries and the people they minister with. For him, this offers an opportunity to meet Oblates where they are, learn about some of the justice and peace issues affecting their ministries and communities, and find ways to support them. In these visits, working with local Oblates and lay people, he proposes and organizes activities to raise awareness about JPIC issues and find ways to respond to them.

Outreach and Animation to Oblates and Their Ministries

The JPIC Office staff is constantly looking at different ways to connect with Oblates working on the ground and the people they minister to. One way is by utilizing our social media channels to share issues the office is working on. We also encourage them to send us stories we can share with our larger audience.
