

## A NEW HEAVEN AND A NEW EARTH

**And I saw a new heaven and a new earth...  
and the One seated on the throne said, "Behold! I make all things new."  
Revelation 21:1,5**

US Christian musicians have felt called to write songs on how

**To take care of creation is to glorify God**

The songs have come pure from the hearts of the artists, as you will hear.

Christians and conservationists stand on common ground. Each sees the beauty of the other.

Common home. Common ground.

A New Heaven and A New Earth is a bridge which lays itself down over troubled water.  
(To paraphrase Paul Simon)

We pray it will fly around the world with healing and joy in its wings!

**Sing unto the Lord a new song: sing unto the Lord, all the Earth! Psalm 96:1**

As of July 2023, 8 songs have been written and produced by well-known and gifted Christian artists. Two concerts have been performed, in Oslo and at the Vatican, one project video done, a second in production, and one music video complete. The songs are being released from May 2023 through February 2024, and further songs in 2024. And the album will be launched in Nashville in Spring 2024. Album art attached.

Contemporary Christian music, that is, contemporary sung worship, is also a call. There is a beauty and grace in it. It is where the Christian world has a conversation with itself, and with the wider world.

Current Christian music is rock, pop, gospel, hip hop, and country music by Christians, and for all. It has its origins in Gospel music. And it has a role to play in the healing and restoration of the planet. It has over the decades become a major music industry force with many means to get their message across and their music out.

One of the desires of our work is expressed by Aaron Cole in his song, Together:

I, I'm choosing no side  
Looking up know He sit high  
2 or 3 together and i know He near by  
I, I'm done choosing sides

Can we do this thing together?  
I know that it can get better  
If we did it all together  
Side by side if you wit me get them hands up high  
...  
He made it beautiful  
We gotta keep it beautiful
